Mammotome revolve
dual vacuum-assisted biopsy system

Breast Biopsy is More Than Just a Needle.
REDEFINING procedural efficiency

without compromising tissue quality – from positioning to diagnosis.

Mammotome revolve is designed for accuracy, repeatability and efficiency, while staying true to your core purpose – acquiring the best quality tissue during your patient’s biopsy. Advanced tissue management technology minimizes tissue handling while eliminating procedure steps to improve workflow and get your patient off the table faster.

- Stereotactic/tomosynthesis
  - Easy access controls and feedback for confident tissue acquisition
  - Automatic collection and organization of cores into touch-free collection chambers
  - Efficient workflow: streamlined specimen X-ray and transport to pathology
  - Patented DualVac technology lets you more quickly acquire desired volume of tissue, while maximizing amount of intact cores for a comprehensive diagnosis

- Ultrasound
  - Robust yet lightweight and ergonomic handpiece for a comfortable fit and control
  - Advanced needle technology offers lowest force to penetrate for ease of insertion
  - Patented DualVac technology lets you more quickly acquire desired volume of tissue, while maximizing amount of intact cores for a comprehensive diagnosis

EFFICIENT POSITIONING, TARGETING AND ACCESS

- Easier patient positioning with greatest access to posterior chest wall lesions
- Most accurate placement and minimized tissue deflection
- Ready for every case with on-demand variable aperture in a single probe

FASTEST SAMPLING WITH UNTouched QUALITY CORES

- Faster biopsy with untouched high quality Mammotome cores
- Known individual core acquisition and location throughout procedure

PATIENT AND PHYSICIAN COMFORT

- Instant SteadyVac to minimize hematoma
- On-board undiluted fluid delivery for patient comfort
- Comfortable and ergonomic control, real-time clinician feedback

UNCOMPROMISED CONFIRMATION

- Immediately ready for imaging; no time needed to scrape or sort cores
- Eliminates tissue handling from collection to pathology
- Complete and informed picture to pathology for efficient diagnosis

*Compatibility varies by manufacturer.
*Please call Mammotome to verify before purchasing.
